

CONSULTING GUIDE

MONTESSORI OMAN TRAINING  
INSTITUTE

# CONSULTANCY SERVICES

## ABOUT US

Montessori Oman Training Institute was established in 2013. We specialize in training Montessori teachers and assisting educational institutions in creating Montessori schools. Our diploma program and Montessori classrooms are focused on the early years, children between the ages of 2 - 5.5 years.

# ACCREDITATIONS

## MACTE

Montessori Accreditation Council for Teacher Education (MACTE) is the international standard and accrediting body for Montessori educator preparation. Montessori Oman operates under the affiliation of MACTE.

## MEPI

Montessori Educational Programs International (MEPI) assures that Montessori training programs meet the international standard. Montessori Oman represents MEPI in Oman, our role is to overlook and assure quality of teaching is met for the early years.

## Ministry of Education

As representatives of MEPI, the Ministry of Education has granted the institute the license of the Montessori curriculum in the Sultanate. Any educational institution that would like to receive the accreditation must be approved by Montessori Oman.

# CONSULTATION PACKAGES

Montessori Oman Consulting Services assists educational institutions in achieving excellence in the care and education of children through the Montessori philosophy.

We offer three consultation packages for kindergartens and nurseries.

# SCHOOL VISIT

05

## School Visit Process

We can provide guidance to other institutions through a school visit. An initial meeting is set with the related parties and the Montessori Oman team. During the initial meeting, factors that the school requires assistance with would be highlighted. Afterward, Montessori Oman would visit the school campus, and provide verbal recommendations and suggestions based on the concerns shared earlier.

## Areas where we can provide guidance

Montessori Materials

1

Do you have all the materials required for a Montessori class?

Classroom Design

2

Is the classroom designed to facilitate children's learning?

Curriculum Suggestions

3

Does your curriculum encompass all the key learning areas?

Facility Suitability

4

Is my current facility viable for a Montessori school?

# CLASSROOM SETUP

06

## Complete Setup Assistance

The Montessori Oman team can assist schools that are interested in setting up a Montessori classroom but do not require accreditation. Schools would receive the following:

### List of Required Materials

We provide a complete list of materials required based on the needs of the school for both indoor and outdoor.

### School Visit

Provide recommendations to create a suitable environment for Montessori education.

### Classroom Design

Can provide a detailed design of the classroom and furniture suggestions

### Team Assistance

Help with obtaining required Montessori materials, assist with setting up in the classroom, and will be available if any further guidance is needed.

### Staffing

Montessori Oman can evaluate the knowledge and qualifications of staff and provide workshops where necessary.

Materials and detailed workshops for staff are not included in consultation rate.

# FULL ACCREDITATION

07

## Internationally Recognised

In partnership with MEPI, Montessori Oman holds the license of the Montessori curriculum. Any educational institution that would like to become internationally accredited would need to receive our approval. Therefore, we provide schools with guidance and assistance to complete the accreditation process.

## Accreditation Process

# OUR APPROACH

08

Montessori Oman follows a thorough process when evaluating early childhood settings. We assess schools based on five criteria:

## 1. Building Evaluation

Suitability of the building as a Montessori environment for children. This includes classroom layout, building design, location, and safety.

## 2. Equipment & Materials

Adequacy and the quality of equipment and materials available for children's use. This criterion looks at the suitability of furniture, sufficiency of class materials for the five learning areas, outdoor play area, and materials for activities such as art, cooking and music.

## 3. Curricula & Programs

School's ability to provide children with the curriculum and programs required to achieve the necessary learning outcomes and objectives.

## 4. Regulations & Guidelines

Regulations and guidelines give us insight into the preparation and efficiency of the environment. It describes the internal workings of the organization and the way in which it operates.

## 5. Teacher Qualifications

Qualifications and certifications of the staff and teachers in the school to ensure that they are able to provide quality education and care for the children.
